sənsisyustən Building Renovation & Expansion June '18 Update

The moving of sənsisyustən House of Learning operations will be active from June 7 – 29, 2018 as the school is undergoing a major renovation and expansion.

Once construction begins, those visiting or working near the site should be advised that there will be ongoing changes and updates to traffic patterns and parking throughout the period of construction. Members, staff and visitors are advised to visit wfn.ca and social media channels for project updates.

Ground Breaking Ceremony

To kick off the renovation and expansion project, a ground breaking ceremony will be held to celebrate the beginning of construction. The ceremony will take place at ***sənsisyustən House of Learning June 19, 2018 at 12:15pm.***

Community Core

School construction is set to finish in the summer of 2019 with phase 3 Community Core improvements wrapping up fall of 2019. Upgrades to the school will tie in nicely with other recent investments in WFN's community core, including the construction of a \$5.5 million Youth Centre, which opened in 2017, and the upcoming 2018 construction of a \$700,000 public skateboard park and sports court.

Member Employment Opportunities

Greyback Construction Ltd. has been awarded the project and is set to mobilize the site June 25 – 29, 2018. They are looking to hire WFN members for ongoing laborer and ticketed and un-ticketed carpenter positions.

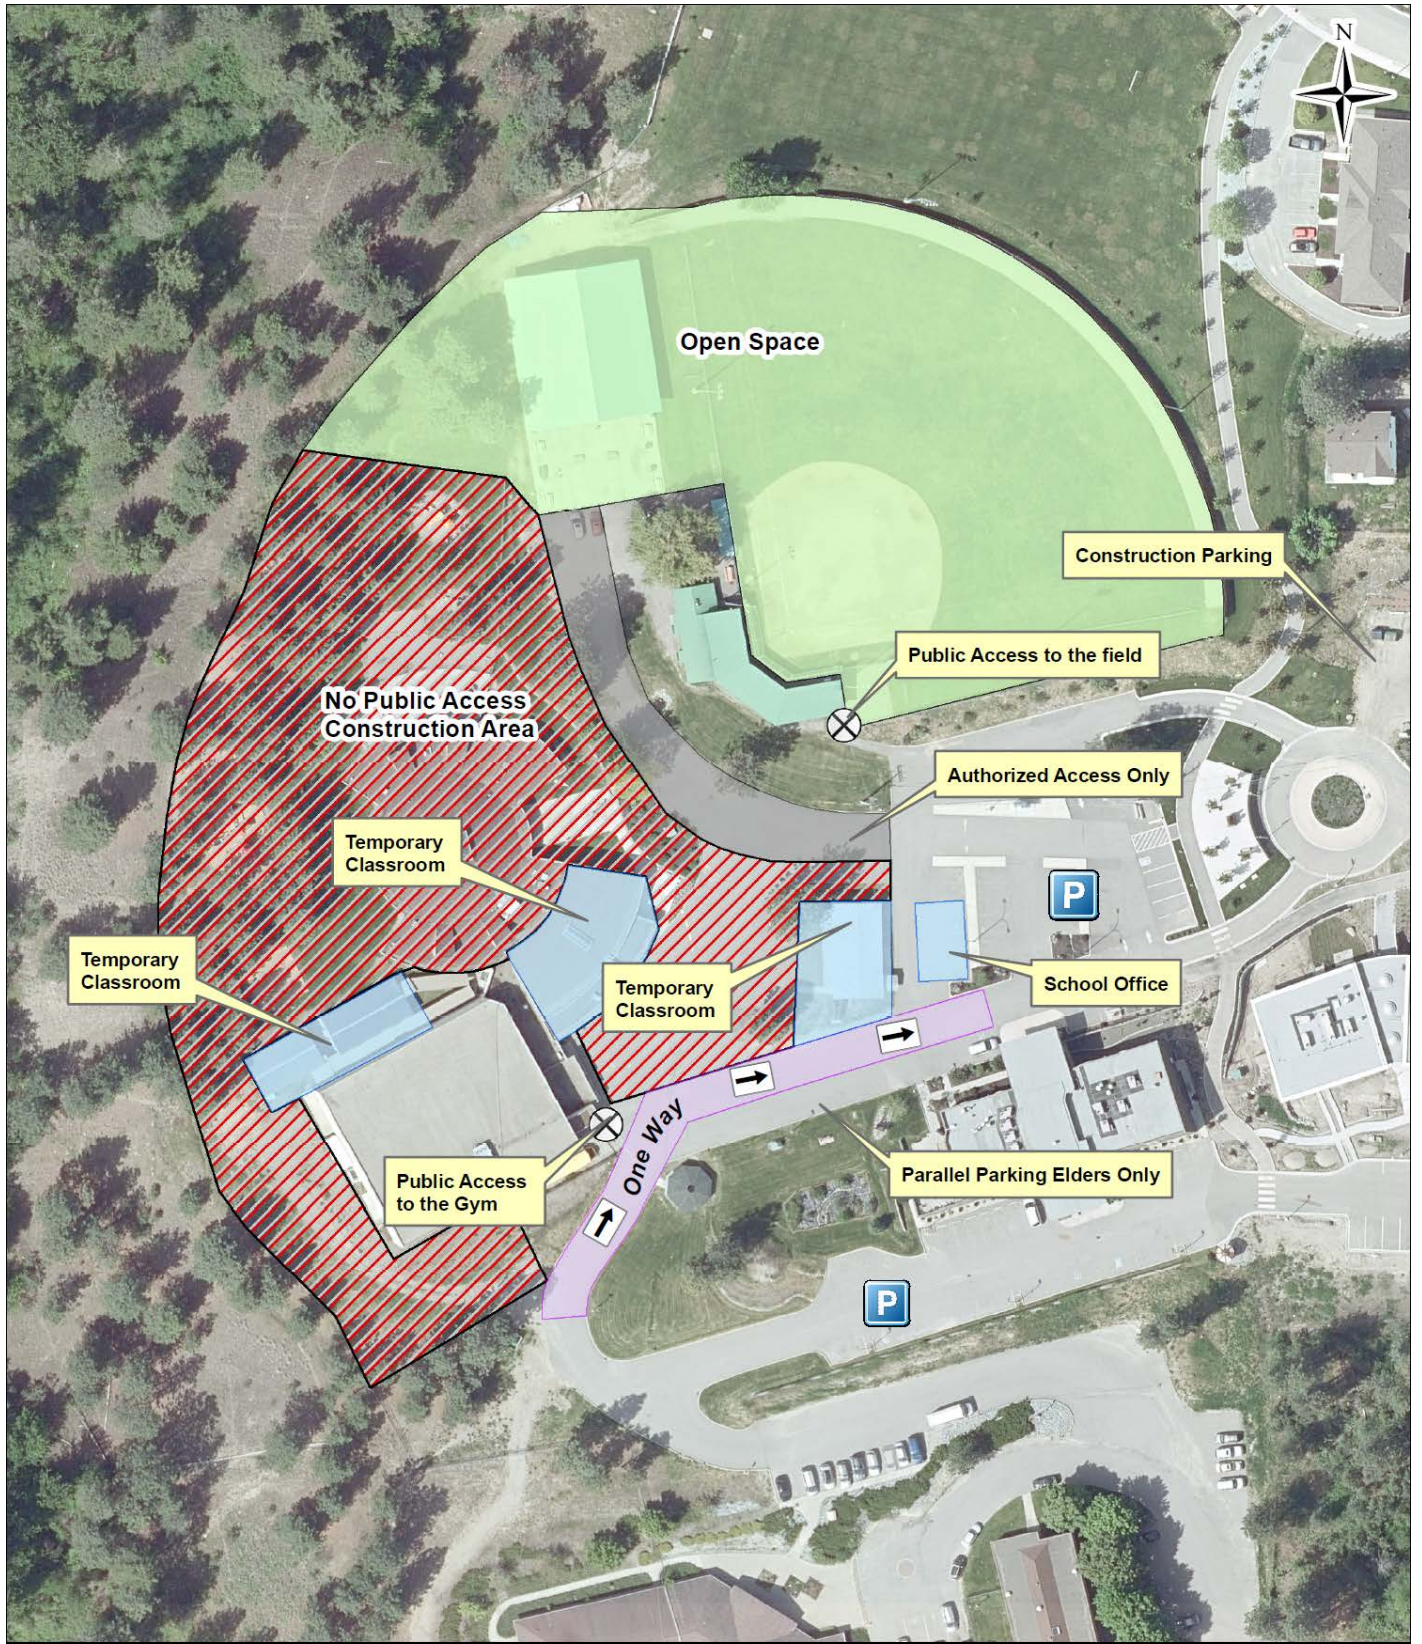

WFN staff are formulating a list of members with trade's certification who are interested in on call work throughout the duration of the project. Employment opportunities will continue to be highlighted to membership both online and in the Membership newsletter.

Detailed employment information can be found on the WFN website, www.wfn.ca or by contacting Derek Corning at dcorning@wfn.ca.
