

### **1. Development Update**

Westbank First Nation's Senior Planner attended the Advisory Council meeting to provide the Advisory Council with an update on the development occurring on Westbank Lands, which is very plentiful. One of the reasons for the update to the Advisory Council is so that Advisory Members will be in a better position to answer questions received from residents within their districts. If they are unable to answer questions, they will direct residents to the proper department for getting those questions answered. Residents may also go directly to the Westbank First Nation (WFN) if they have questions about capital projects occurring on Westbank Lands. The web address is:

<https://www.wfn.ca/news/2021springconstruction.htm?CategoryID=47070&Include=1&SortType=2&SortDirection=2>.

### **2. Updating of Advisory Council Web Information**

Work is currently underway to update the Advisory Council web page and other pages of the WFN website to provide better information on the Advisory Council and related topics. More emphasis will be placed on news articles, and a digital newsletter will be created that residents can subscribe to. The Advisory Council web address is: <https://www.wfn.ca/your-government/advisory-council.htm>.

### **3. Next Meeting**

The next Advisory Council meeting is scheduled for Tuesday, m̓íktúʔtin (May) 11, 2021 at 9:00 a.m.
