- (b) Where applicable development cost charges have not been charged nor paid, then the metered rate for all sizes of connection is \$1.00/m³.

Residential Rates

- (c) Metered rates for residential services are charged for the number of dwelling units on the service and a per cubic meter rate for the Meter Rate water that passes through the meter. Each service must pay base rate of \$8.00 for each dwelling unit and also pay \$0.20/m³ for the water that passes through the meter.

Undetected Leaks

- 3. Where an underground leak is discovered in a consumer's water works system, and where the consumer could not reasonably have been expected to be aware of such a leak, Westbank First Nation will be entitled to charge for such water a rate which does not exceed the average of the rates billed for the preceding six (6) months plus the rate in Part D, section 2(a) and (b), for all water which, as recorded by the meter, has passed through the meter since the last previous reading thereof, and which is in excess of the average consumption or use over the preceding six (6) months and provided that repairs of the consumer's water works system have been carried out to the Manager's satisfaction within ninety-six (96) hours of discovery of the leak.

Defective Meters

- 4. Where a meter is found to be defective when read, and has not indicated correctly the volume of water which has passed through it, Westbank First Nation will be entitled to charge for such water according to the average consumption for the six months immediately preceding the date upon which such meter was last found to be in order.

PART E - METER TESTING [Section 8.10]
